BIO

I've been working in the camera department for over 25 years.

I started out as a camera trainee on The Full Monty, then going on to load on Shaun of the Dead, before Focus Pulling for over 19 years on everything from low budget music videos to a Marvel feature film, Jamie Oliver food programmes to Ferrari car commercials.

My experience is broad and wide ranging, encompassing film and digital camera packages, handheld and remote heads.

I am now bringing that wealth of experience to operating, I look forward to hearing from you.
